Industry Trends

- Keeping track of incidents, policies, training, and other core aspects of daily police work is easier and more productive with customizable and user-friendly records management systems (RMS). These systems also help optimize accountability and transparency while addressing liability concerns. -IACP

Current Application

MPD Training section is currently using PowerDMS to electronically record all lesson plans. This started January 1, 2019. This includes academy lesson plans.

Ongoing project to provide Department training through PowerDMS.

Proposed Action

- *Approve recommended change to policy:*
 - The Training Section maintains lesson plans for all classes taught in the Department.
 - The lesson plans will be kept electronically in PowerDMS.

Slide 9

JW1

what is the policy change? To use PowerDMS to track lesson plans? Also, does this include recording when an officer receives the actual training?

Jeffrey Wojnar, 12/2/2019
