# Gap Analysis-Policy

- Recommendation:

- De-escalation: When reasonable under the totality of circumstances, officers should gather information about the incident, assess the risks, assemble resources, and coordinate a response. In their interaction with subjects, officers should use warnings, verbal persuasion, and employ proper tactics. Officers should recognize that they may withdraw to a position that is tactically more secure or allows them greater distance in order to consider or deploy a greater variety of force options. Officers shall perform their work in a manner that avoids unduly jeopardizing their own safety or the safety of others.
